PROFESSIONAL SUMMARY

Final-year B.Tech Information Technology student and Backend Developer with hands-on experience in Java, Python, Spring Boot, Node.js, Express.js, RESTful APIs, MongoDB, and MySQL. Experienced in developing backend services, authentication, CRUD operations, database integration, API testing, debugging, and application development. Strong foundation in Object-Oriented Programming, DBMS, problem solving, Git, and Postman. Seeking an entry-level Backend Developer / Java Developer opportunity.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript

Backend: Spring Boot, Node.js, Express.js, REST APIs, Authentication, CRUD Operations, API Integration

Databases: MySQL, MongoDB, Database Design, DBMS

Tools: Git, GitHub, Postman, VS Code

Core Concepts: Object-Oriented Programming (OOP), Data Structures, Algorithms, Problem Solving, HTTP, Client-Server Architecture

PROFESSIONAL EXPERIENCE

Backend Developer Intern | Vulture Lines Tech Management Pvt. Ltd. 15 June 2026 - 30 June 2026

- Developed RESTful APIs using Node.js, Express.js, and MongoDB for backend application functionality.
- Implemented backend functionality for user authentication, data management, and CRUD-based operations.
- Tested and debugged REST APIs using Postman and improved API reliability through systematic validation.
- Used Git for source-code management and collaborated on backend development and debugging tasks.

Backend Developer Trainee | Training Trains Software Technologies & Institute 3 July 2025 - 18 July 2025

- Completed hands-on backend development training focused on server-side programming and REST APIs.
- Worked with Node.js, Express.js, database integration, API development, and backend application fundamentals.
- Practiced RESTful services, database connectivity, API testing, and debugging.

PROJECTS

Assessment Management System | MERN Stack (MongoDB, Express.js, React, Node.js)

- Developed a full-stack assessment management application. Implemented backend APIs, authentication, database operations, and role-based application functionality.

MERN Product Store | MERN Stack (MongoDB, Express.js, React, Node.js)

- Built a product management and e-commerce-style application. Worked on REST APIs, CRUD operations, database integration, and frontend-backend communication.

Library Book Management System

- Developed a library management workflow for managing books and borrow requests, including book availability, request status, and backend data management.

EDUCATION

B.Tech in Information Technology

2023 - 2027

N.S.N. College of Engineering and Technology, Tamil Nadu | Anna University

CGPA: 8.24 (up to current semester)

ACHIEVEMENTS

- Solved 300+ problems on LeetCode across 200+ days of consistent Data Structures and Algorithms practice.
